Refereed Reference Article

Michael Gelfond and Vladimir Lifschitz:

Action Languages

Authors' affiliations:
MG: University of Texas at El Paso, USA
VL: University of Texas at Austin, USA

Abstract: *Action languages are formal models of parts of the natural language that are used for talking about the effects of actions. This article is a collection of definitions related to action languages that may be useful as a reference in future publications.*

Publication and review history

1. First version *published* by Linköping University Electronic Press on 15.10.1998 and permanently available at
   http://www.ep.liu.se/ea/cis/1998/016/
2. *Received* by the research area "Reasoning about Actions and Change" of the Electronic Transactions on Artificial Intelligence, posted on its web site, and advertised in its Newsletter on 11.10.1998.
3. Available for *discussion* in the ETAI area of Reasoning about Actions and Change until May, 1999. The discussion protocol is available and will be retained in the Article Interaction Page at
   http://www.etaij.org/ra/rac/015/
4. Revised version, with minor corrections compared to the first version, *published* by Linköping University Electronic Press on 7.5.1999 and permanently available at
   http://www.ep.liu.se/ea/cis/1998/016/
   under the label "Revised publication 1999-05-07".
5. Revised version *accepted* after due refereeing and according to scientific journal standards by the Electronic Transactions on Artificial Intelligence (ETAI) on 6.5.1999.
6. Revised version appears in Electronic Transactions on Artificial Intellligence, Volume 2 (1998), Issue 3-4, pages 193–210. The issue and the annual volume are made permanently available at
   http://www.ep.liu.se/ej/etai/1998/
7. Paper editions of the ETAI issue and the ETAI volume containing this artice *republished* by the Royal Swedish Academy of Sciences.

The review policy and the quality requirements for acceptance are documented at http://www.etaij.org/info/

Article maintenance

The Electronic Transactions on Artificial Intelligence maintains an Article Interaction Page for this article at
http://www.etaij.org/ra/rac/015/
Besides the publication and review history, it contains links for contacting the author(s), as well as to amendments and other related information for the article. It is intended to keep these links up-to-date in the future.
