Rob Miller and Murray Shanahan:

The Event-Calculus in Classical Logic - Alternative Axiomatisations

Authors' affiliations:
RM: University College London, UK
MS: Imperial College of Science and Technology, UK

Abstract: *We present several alternative classical logic axiomatisations of the Event Calculus, a narrative based formalism for reasoning about actions and change. We indicate the range of applicability and key characteristics of each alternative formulation.*

Publication and review history

1. First version *published* by Linköping University Electronic Press on 30.9.1999 and permanently available at
   http://www.ep.liu.se/ea/cis/1999/016/
2. *Received* by the research area "Reasoning about Actions and Change" of the Electronic Transactions on Artificial Intelligence, posted on its web site, and advertised in its Newsletter on 21.9.1999.
3. Available for *discussion* in the ETAI area of Reasoning about Actions and Change until July, 2000. The discussion protocol is available and will be retained in the Article Interaction Page at
   http://www.etaij.org/ra/rac/022/
4. First version *accepted* after due refereeing and according to scientific journal standards by the Electronic Transactions on Artificial Intelligence (ETAI) on 15.1.2001.
5. Original version appears in Electronic Transactions on Artificial Intellligence, Volume 3 (1999), section A, pages 77–105. The section and the annual volume are made permanently available at
   http://www.ep.liu.se/ej/etai/1999/
6. Paper editions of the ETAI issue and the ETAI volume containing this artice *republished* by the Royal Swedish Academy of Sciences.

The review policy and the quality requirements for acceptance are documented at http://www.etaij.org/info/

Article maintenance

The Electronic Transactions on Artificial Intelligence maintains an Article Interaction Page for this article at
http://www.etaij.org/ra/rac/022/
Besides the publication and review history, it contains links for contacting the author(s), as well as to amendments and other related information for the article. It is intended to keep these links up-to-date in the future.
