```
This is a section from ''Hypermanual on Actions and Change'',
edited by Erik Sandewall and published as a WWW structure on Internet.
The hypermanual can be accessed as
     http://www.ida.liu.se/labs/rkllab/groups/hymalac/
The present section of the hypermanual is named CAUSAL-MIN.
The present version of the section is dated July 9, 1995.
```

This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text.

Now make a sample text with formulae.

$\mathrm{H}(25, \mathsf{coffee\text{-}hot})$,

$\mathrm{D}(20, 25, \mathsf{make\text{-}coffee})$,

$\mathrm{X}(25, \mathsf{coffee\text{-}hot})$,

Action laws:

$\mathrm{H}(s, \mathsf{loaded}) \wedge \mathrm{D}(s, t, \mathsf{Fire}) \rightarrow \neg \mathrm{H}(t, \mathsf{alive})$.

And then we continue with some others:

$\neg \mathrm{H}(\mathbf{S0}, \mathsf{coffee\text{-}hot})$.

and the text continues with

$\mathrm{T}([\,], \mathsf{alive})$,

$\neg \mathrm{T}([\mathsf{load}; \mathsf{wait}; \mathsf{fire}], \mathsf{alive})$.

Now let us see how it comes out... This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text.

This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text.

This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text.

This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text.

This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text. This is a sample text.
