Level 1
Level 2
Level 3
Small-molecule metabolism
Macromolecule metabolism...
Cell... Processes...
Other...
Degradation
Energy Metabolism...
Central intermediary metabolism...
Amino acid biosynthesis...
Polyamine synthesis...
Purines, pyrimidines, nucleosides and nucleotides...
Biosynthesis of cofactors, prosthetic groups and carriers...
Lipid Biosynthesis...
Polyketide and non-ribosomal peptide synthesis...
Broad regulatory functions...
Carbon compounds
Amino acids and amines
Fatty acids
Phosphorous compounds
